Remer Rubinetterie, born in millano in 1965, is supplying the italian and international market since over 40 years and it's always in evolution, searching innovation and aiming perfection.

The strong investments done and necessary to obtain a completly internal cycle of production, together with the big numbers internally produced, increase the profile of Remer Rubinetterie. They guarantee to all our customers a triple security on our product which are the authenticity of the orgin, the security of the quality and the best competitiveness on the market.

Starting with the 3D project, to the prototyping, to the selection of the material, continuing with the use of the most sophisticated and technologically advanced machinery supported by robots a total automation, time and cost saving, all is done by inside. including the polishing and the chorme plating, all the production cycle is internal to the factories of our Group. Meticulous testing and assembly give to each product the warranty of an item thought and created to last in time.

This is Remer Rubinetterie, this is our group and its is in steady development. Actually we are structured over an area of around 85.000 sqm covered and 20000 sqm only of offices. but our ideas do not finish here. A Team of attentive and Specialised Staff is always working for acquiring new machineries, new technologies and for the study of new shapes and applications. As for new serie, beautiful and studied in every minor and major detail and in which are present many new concepts that gave birth to several international patents.
